A BOLD DESPERADO.

Attempt to Rob a Paymaster of a Large sum of Money.

CINCINNATI, O., Aug. 30. About 10 this morning when the train on the Big Four road stopped at Addison where the extensive iron works of the Addison Co. are located, the paymaster of the company alighted, carrying a satchel with money for the payment of the men. Its value was estimated at $11,000 to $20,000, and with him was the superintendent of the works and an assistant. Hardly had they started towards the works when a desperado appeared with a drawn revolver and demanded the money. Mr. Burns and his companion quickly drew their weapons when the robber discharged his weapon and instantly started to run, spurred on by the rapidly discharging revolvers in his rear and succeeded in making his escape.

A FRIGHTFUL DROP.

Shocking Affair at a County Fair in Ohio.

Man Falls a Thousand Feet from a Balloon.

WOODFIELD, Ohio., Aug. 30. At the big fair yesterday 30,000 people assembled to witness the races and balloon ascension. The balloon was a simple hot air affair and kept in position by ropes held by bystanders. At a signal from the balloonist the ropes were let go and the balloon shot up with Milton Redin, a prominent young man of the county, dangling at the end of one of the lines. People shouted to him to drop but he was either entangled in the rope or had lost his presence of mind and clutched frantically at the rope, attempting to climb up into the basket. Center, the balloonist, at the same time making desperate efforts to draw Redin up the rope, when suddenly the balloon, which had reached a height of 1,000 feet, took a sudden lurch. Redin's hold was loosened and his body shot downward. It was found half a mile away. His clothing was torn off and all his bones broken. The body was crushed out of all human semblance.

A DASTARDLY AFFAIR.

An Attempt to Wreck a Train near West Albany.

ALBANY, N. Y., Aug. 30. A dastardly attempt to wreck the Chicago express due here at 2 o'clock this morning was made, about two miles west of West Albany, where the cow catcher of the engine struck a pile of ties which had been placed on the track. Fortunately the ties were in such a position as to be easily swept aside and no damage resulted. District master workman Lee said the ties were undoubtedly placed upon the track by Pinkerton men to make the company believe their presence here is still necessary.

NEW YORK, Aug 30. A special from La Libertad says United States Minister Mizner, at the request of the Guatemalan authorities, compelled the captain of the steamer Acapulco to surrender Gen. There being an United States man-of-war in port to carry out Mizner's orders the captain of the Acapulco gave Barundia up under protest. Mizner's action is considered here one of the most high handed acts of the present difficulties in Central American Salvadorian officials say he should be recalled by the United States government immediately.

THE SIZE OF IT.

The headline has no reference to the dimensions of the cake but to the length, breadth and depth of the principle. The whole basis on principle with a foundation as solid as the Rock of Ages and as lasting. And like it why the cake with Cuba their household blessing—Hancock Soap—died a great shocker, for they quite on principle, and its lasting qualities—public and the pocket book with savings.

Business Items.

Prescots in every package of Tuxedo.

WE CAUTION ALL AGAINST THEM.

The unprecedented success and merit of Ely's Cream Balm—a real cure for catarrh, hay fever, cold in the head—has induced many adventurers to place catarrh medicines bearing some resemblance in appearance, style or name upon the market, in order to trade upon the reputation of Ely's Cream Balm. Don't be deceived. Buy only Ely's Cream Balm. Many in your immediate locality will testify to its highest commendation of it. A particle is applied into each nostril; no pain, agreeable to use. Price 50 cents at druggists and by mail.

Pears' Soap is the most elegant toilet adjunct.

ASK YOUR FRIENDS ABOUT IT.

Your shortcoming cough can be cured. We have yet to learn of Hagyard's Balsam which in the past four years has cured so many coughs and colds in this community. Its remarkable sale has been entirely by its genuine merit. Ask some friend who has used it what the results of Hagyard Balsam. There is no medicine so pure, none so effective. Large bottles 50 cts. and $1 at all druggists. Sample bottle free. mch31 MWFSw

What steam is to the engine, Hood's Sarsaparilla is to the body, producing bodily power and furnishing mental force.

WHY IT IS POPULAR.

Because it has proven its absolute merit over and over again; because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it contains economy and strength, being the only medicine of which "100 Doses One Dollar" is true. Many strong points have made Hood's Sarsaparilla the most successful medicine of the day.

For Representatives to the Legislature.

The Representative Ticket.

The Republicans of Bangor put round with the ten nots for which the caucus was called Saturday night, nominating a Representative ticket that will commend itself not only to the party, but to all citizens generally who appreciate the importance of sending men to Augusta who are familiar with all of our interests and who are able to advance them in every honorable way.

HENRY N. FAIRBANKS, who was first placed in nomination, is one of our best known citizens. He was a gallant soldier during the war, and is to-day, an honored and valuable member of the Grand Army of the Republic. As a business man Capt. Fairbanks has made a reputation for honesty and upright dealings that has won for him the high respect and entire confidence of his fellow townsmen. He has served three terms in the Common Council the last as President of the Board, and is therefore thoroughly acquainted with the various interests of the city which will find in him an able, earnest and prudent legislator.

JOSEPH W. PORTER is one of the best equipped men in the State for legislative work. He has served in both branches of the Legislature and has held various important offices under the state Government, giving him this intimate knowledge of men and affairs that will be of great service to him as a legislator from Bangor. He served one term in the Common Council and was then elected Alderman from Ward Five, a position he ably fills to-day. Col Porter is known in Bangor and in fact throughout the State as a clear headed business man of unquestioned integrity and one in whose hands the interests of the city will be well cared for.

JAMES ADAMS is another of our load up builders men and his name adds strength to the ticket. As a member of the firm of S. & J. Adams he is known as one of the sound and solid business men of Eastern Maine, a man whose sagacity and integrity in a long commercial career have won for him an enviable repute on that extends beyond the confines of Bangor. Mr. Adams has served the city in both branches of the City Government, is perfectly familiar with our business affairs and will bring to his new position an experience and sound judgment that cannot fail to make him a valuable legislator.

Such is the ticket placed in nomination by the Republicans. It is a strong ticket and one that will impress the public as such favorably. Bangor wants representatives at Augusta who understand the affairs of the city and who are competent to look after them as they come up, with strict economy and clear business judgment. The city will find such men in the nominees of the Republican party. The caucus was performed its duty with a correct appreciation of the importance of the work intrusted to it. The composition of the ticket devolves upon the voters and the action of the caucus should be heartily ratified at the polls one week from to-day.

The Whole Ticket.

The *Commercial* makes the very positive prediction that the Democratic candidate for County Commissioner is going to be elected. This prediction might possibly attract more attention if our contemporary had not made so many similar predictions in the past only to prove a false prophet when the vote was counted. Hon. William T. Wood, the Republican candidate for County Commissioner, is an old resident of the county seat. He has rendered the county good service, has been a faithful official and should and will be elected with the rest of the Republican county ticket on Monday next. Other gentlemen came before the convention and received the cordial support of their friends. When the ballot declared the fact that Mr. Wood had been awarded a nomination, however, all rivalry ceased and the whole ticket, representing the free choice of the Republican voters of Penobscot, was the ballot cry of the convention and the party at large.

Prepare for the Polls.

This is the last week of the campaign. On Monday next comes the election and Maine's verdict will go to the country. That verdict should be an expressive one and if the Republicans do their duty it will be a gratifying report that flashes over the wires Monday night. Much depends upon the committees in the various towns and we wish to impress this fact upon their attention. It has been a peculiar campaign in some respects. There has been very little speaking because it was found impossible to secure speakers on account of the fact that Congress is in session. Aside from the information derived from a discussion of public questions by our leading statesmen, this feature of the campaign arouses an interest among the people, not to make up for the lack in speaking, devoted to it, the committees in each town should see that every Republican voter is polled and that every one is brought to the polls. Let this be done and the result will be a rousing victory.

The Contrast.

The *Commercial* makes a funny exhibition in dealing with the two campaign meetings last week. It re-ports the meeting of Thursday night, which even Democratic papers admitted was a failure, as largely attended and full of enthusiasm, and claims that it was a grand affair while the Republican meeting which could have supplied four or five such gatherings in the Democratic rally and still have had a good audience left, it labels was "a fizzle." Such assurance and shrewd bid back of it speaks on the part of the Republicans. To show worth our contemporary refers to an article the chapter theory that to have a really successful campaign meeting the speakers should talk to empty benches, as was the case Thursday night in consequence of a hall column report, a considerable portion of which we believe is intended to be humorous, the only bright thing about when the writer unwittingly declares that Mr Lodge "went back to the Bangor House with the consciousness of a task well performed." The "task" was a performance indeed. Mr. Lodge made one of the best speeches heard in this city for years and he had a fine audience, in both of which respects the Republican meeting was in marked contrast to the boisterous gathering Thursday evening.

The Connecticut Mutual Life Ins. Co.

The Connecticut Mutual Life Insurance Company has been engaged in the business of insurance on the lives of men for more than forty years, and during all that time has never made an assessment upon its members, but has paid to the families of deceased members the full amount insured, in each case, without reduction. The Company has now a surplus of more than SEVEN MILLION DOLLARS, over and above all its liabilities, including reserve for re-insurance of its outstanding policies, and is paying annually to its policy holders, or their families, more than it receives in premiums. Its assets are invested in the most careful manner, principally in first mortgages on improved real estate, worth double the amount loaned thereon, and in bonds and stocks of solid railroad companies, which have been paying regular dividends for many years. Its business methods are liberal, and its policies are plain and definite contracts, which are not affected by any statements or representations not indorsed thereon. Its rates are as low as those of any company which offers as much protection. Its dividends are large and prompt. Its death losses are paid immediately upon proof of death and completion of claim papers. Its policies are non-forfeitable after two annual premiums have been paid, and are liberal in their provisions for extended insurance, paid-up insurance, and cash surrender values. Its policies are incontestable for any cause after three years from date of issue. Its policies are free from restrictions as to travel, residence, occupation, habits, etc. Its policies are payable without discount, and are not subject to any claim for the debts of the insured. Its policies are assignable, and are loaned to the full amount of the reserve value. Its policies are issued on all the approved plans of life insurance, and at the lowest rates consistent with safety. Its agents are selected with care, and are required to explain the plans and rates of the Company fully and correctly. Its Home Office is in the Company's own building, in the city of Hartford, Conn., and its Agencies are in the principal cities and towns throughout the United States.

EXCITEMENT IN BIDDEFORD

Over the Neglect of Some Aldermen to do Their Duty.

BIDDEFORD, Aug. 31. There is much political excitement here to-night because of the oversight of the Saco Board of Aldermen in not holding a meeting, between August 11 and 18 to revise the check lists, according to the requirement of the statutes. The Saco officials admit the error, though they claim that all the other requirements relating to the election have been fulfilled. The Democratic aldermen, who were regularly elected and organized in the United States district court on charge of neglect of duty, look upon the Saco aldermen's neglect as a parallel case.

Leading Biddeford Democrats are anxious to push the matter and it is probable that the arrest of the Saco Aldermen will occur within a few days. Counsel has been engaged. Another conference will be held to-morrow and it will then be decided what action to take. The Democrats claim the Saco Aldermen's error will invalidate the election and that if the district gives a majority to Congressman Reed his election will be contested.

The Senate and the Tariff Bill.

Labor Legislation in the House.

Senate.

WASHINGTON, Aug. 30. The tariff bill was taken up, the pending question being on Mr. Carlisle's motion to strike out the wool paragraphs—77 to 209—so as to place wool on the free list. Rejected.

The House amendment to the Senate bill granting a pension of $100 a month to the widow of Gen. Hartranft was disagreed to and a conference asked. (The amendment reduces the pension to $50.)

Adjourned.

House.

The House met at 11 o'clock to-day, the understanding being that the first hour of the session should be for debate only on the bill for the adjustment of the accounts of laborers, workmen and mechanics arising under the eight-hour law. The measure was earnestly advocated by Messrs. Carroll, Dingley, Covert, Morrill, Flower, Wade, Reilly, Gibson, Farquhar of New York. It was opposed by Messrs. Chipman and Brewer, the latter offering an amendment providing that this act shall not be operative whenever the court of claims shall find that the claimant performed service under any contract expressed or implied, and has been paid the amount agreed upon. The amendment was adopted and the bill was then passed.

The House then proceeded to the consideration of the bill amending the alien contract law. In advocating the measure, Mr. Buchanan, of New Jersey, said that while immigration had helped to build up the country, purchased immigration had become an evil. Not only did our countries ship their paupers and passport to this country, but people in this country made contracts for the importation of laborers, and under these contracts these laborers came into competition with our own home, honest labor. There were cases where the present contract labor law did not cover and which were necessary to be covered if the labor of this country was to be protected against contract labor brought from abroad. This was the object of the pending legislation. There had been difficulty in enforcing the provisions of the present law.

There was no requirement that the steamship companies bringing over contract labor should be compelled to return them. This bill provides for the return of the men so imported at the expense of the steamship company. The Government had a right to demand the ties in migration into this country should be honest and legitimate, and it was therefore provided in the bill that where any person or corporation encouraged any alien labor to migrate through promises of employment through advertisements, such action should be unlawful, and that the alien should not be admitted to our ports.

Mr. Quinn, of New York, earnestly advocated the bill, believing that it would go far to right the wrong which had for so long been crushing down the toilers of the land, causing despair and misery everywhere.

Mr. Neidringhaus, of Missouri, was in favor of the bill, although criticising the clause which exempts from the operation of the existing law regularly ordained ministers of the gospel.

After further discussion the bill was passed without opposition.

Mr. Wade, of Missouri, from the Committee on Labor, then called up the bill prohibiting the employment of convict labor on public works, and the bill to prevent the purchase of supplies, the product of convict labor, by the United States. Passed.

Mr. Dingley, of Maine, presented the conference report on the bill to prevent collisions at sea. It was adopted.

Adjourned.

ARKANSAS AGAIN.

A Democratic Mob Brutally Pound a Republican

And Steal Union Labor Ballots.

ST. LOUIS, Aug. 31. A dispatch from Little Rock says: A mob of about 2,500 men yesterday surrounded Merry Hill station, where an Union Labor mass meeting was to have been held yesterday. On the incoming train were J. E. McLaughlin, an Union Labor orator, and Geo. A. Small, a prominent white Republican, who had been here for the purpose of getting the Union Labor tickets for use in Conway county for the election to-morrow. Small carried 7,000 tickets in valises. When the train stopped the crowd of

Men Sprang Forward

and poured into the coach. Small was beaten into insensibility, and the tickets carried away. McLaughlin was roughly handled, but not seriously hurt. New tickets are being printed.

The mob was composed of Democrats and the immediate cause of the trouble was a desire to get possession of the Union Labor ballots and wreak vengeance on Small, who is charged by the Democrats with organizing Grand Army posts. The Union Labor and Republican tickets were printed in St. Louis to prevent the Democrats from counterfeiting them and deceiving the colored voters.

FIENDISH WORK.

Incendiaries Attempt to Destroy Senator Stanfords' Houses.

SAN FRANCISCO, Aug. 31. Only the vigilance of the hostlers at Sons of Stanford's big Palo Alto ranch near Palo Park last night prevented a fire which would have been a repetition of the disastrous fire of three years ago in which more than a dozen promising young trotters and runners were burned.

About nine flames were detected in 1,000 bales of straw near the main stable. By the light of the burning straw two men were seen running away. The danger was so pressing they could not be followed, but two shots were fired at them. When the men got out the fire here they found a knot tied in the middle to make it use up. The fire was confined to the stable. Loss, $7,000.

BUSINESS TROUBLES.

Complications will be Settled Amicably.

BOSTON, Aug. 30. The Journal says that Parkman A. Wyman, counsel for Assignee Hassell, has released the trustee that he had against E. S. & E. G. Wallace, of Rochester, N. H., on the Exchange Bank. This means that the parties are working amicably and that matters will be settled in that spirit if possible.

BOSTON, Aug. 31. At 6 this morning the dead body of William Ryan, a well known Irishman of Bristol, was found floating in the river. RECIPROCITY AMENDMENT.

Senator Aldrich and the Brazilian Envoy.

The Amendment Satisfactory to Brazil.

WASHINGTON, Aug. 31. The reciprocity amendment to the tariff bill was last night the subject of an interview between Senator Aldrich and Mr. Mendoca, the Brazilian envoy, on a special mission to the United States. Mr. Mendoca said that amendment as reported by Senator Aldrich is satisfactory to Brazil and that would be one of the first countries to take advantage of the United States in return for the removal of the duty on sugar.

Mr. Mendoca said his government would remove the duty on farm products exported from the United States, admit free United States agricultural implements, machinery, railroad equipment, and supplies including railroad iron, and make a reduction of at least 25 percent. in the duty on cotton, leather goods and clothing from the United States.

MATTERS IN SAMOA.

Consuls Squelch an Expected Movement on the Part of King Malietoa.

APIA, Samoa, Aug. 30. Action has been taken here recently by the consular representatives of America, Great Britain and Germany to quell the disquietude growing out of the apparent efforts of King Malietoa to retain his lost power. The consuls issued a proclamation causing the discontented natives against forming any intrigues to place Malietoa on the throne and declaring that Malietoa has been recognized as King of Samoa by the three powers and that Samoan villages that should rebel against him would be severely punished. This proclamation is signed by the three consuls, printed in the Samoan language and distributed throughout the islands. U. S. Consul General Steinberger went at once to the island of Savoy on the man-of-war Mohican and called a

Meeting of Chiefs

of the surrounding districts. The chiefs assured Mr. Sewall they acknowledged Malietoa as King and had no intention of doing anything that would cause trouble on the islands. Sewall expressed himself satisfied but warned the chiefs that any encouragement of the disaffected persons would be severely punished. Dr. Knebel, German Consul General, also visited the Savoy Islands and gave the chiefs a similar warning. These visits are believed to have resulted in much good, though a number of fires are reported still to be in a state of unrest. The United States man-of-war Iroquois arrived at Apia from San Francisco, via Honolulu, Aug. 5, and is the only American ship here now, the Mohican having sailed for Fiji after the Iroquois arrived. The German cruiser Sperbe arrived here July 30.

A TERRIBLE EXPLOSION.

Workmen Injured and Killed by Carbolic Acid.

NEW YORK, Aug. 30. A terrible explosion occurred on the Clyde line steamer City of Chester at 10:30 o'clock this evening of a carboy of carbolic acid in the hold of the vessel while the workmen were busy unloading her at the dock. One man, Emil Kinzey, died of his injuries on the way to the hospital, and two others, Andrew Doyle and James O'Meiley, were taken to the hospital and may both die. A number were injured to a less degree by flying glass and burned by the terrible acid. The City of Chester arrived this morning and all day and evening the workmen have been unloading her.

FROM WASHINGTON.

News About the Capitol.

Another Quarter.

WASHINGTON, Aug. 30. The Secretary of the Treasury to-day issued a circular for the redemption of $20,000,000 additional four and a half per cent. bonds under the same terms as under the circular of August 21st.

President Signs.

The President has signed the Meat Inspection bill and the Agricultural College bill.

Business Before Flanders.

Owing to the unexpected pressure of public business the President is compelled to postpone his departure for Cresson, Pa., until some time next week, probably Wednesday.

Mr. Clarkson Retires.

Mr. Clarkson, First Assistant Postmaster General, practically concluded his services in the Postoffice Department today. He said to-night: "I accepted the office unwillingly and for a term of months, not years; and I lay it down gladly. My relations with the President and Postmaster General have never been also than cordial and pleasant. But I have no liking for office holding and while the postal service is one that will absorb the interest and command the pride of any one connected with it, I very much prefer private life and its independence. Reports that I have given up Iowa as my home are incorrect. It is the best State in the Union and my heart is cast with it."

Mr. Clarkson will soon assume the presidency of the Judson Pneumatic Railway Company.

THE RECORD SMASHED.

The Great 100 Mile Bicycle Run.

BUFFALO, Aug. 30. The great 100 mile bicycle run from Erie, Pa., to this city resulted in the smashing of the record. Van Wagoner was never headed, though the last mile was well bunched until the last few miles. Van Wagoner completed the run in 4.08 P. M., with McDaniels a good second, Scott third, and N. E. Smith fourth. The winner's time was seven hours and 30½ minutes. The record was eight hours and two minutes.

LABOR TROUBLES.

A Silly Question.

SAN ANTONIO, Texas, Aug. 30. There is a prospect of a strike of the engineers of the Southern Pacific railway on every train between New Orleans and San Francisco, owing to the appointment as engineer of a fireman who is disbelonging to the Brotherhood of Engineers. The Brotherhood of Firemen endorse the appointment and the matter hangs fire.

The Republicans of Orono will assemble in caucus at the Town Hall Monday evening, September 1st, at 7:30, to nominate a candidate for Representative to the Legislature, writes our Orono correspondent. EASTERN MAINE STATE FAIR.

The Big Exhibition to Begin Next Tuesday.

That annual event, the Eastern Maine State Fair, which is looked forward to by large numbers of people, will begin tomorrow and continue through Friday, with every prospect of complete success. All that is needed is pleasant weather to make it so, and if the skies are blue the result will be one of the best fairs ever given in this city. In some departments the exhibits will surpass those of former years, and this is especially so in regard to the horse department. The string of horses of C. H. Nelson and others will be an exhibition in themselves which will be of great interest. The famous Nelson is to give an exhibition trial, which will not be the least interesting feature.

In order to accommodate all of the colts which will be exhibited and take part in the races new stables are being built, built and old stalls put in the best of order.

The park has been a scene of activity for several weeks with new buildings going up and old ones being put in prime order. The big, new barn contains fourteen fine stalls which will contain some of the best horses. The cattle sheds are already for their occupants, and the entries of stock indicate that more than the usual number of the animals which come under that head will be found at the park. New platforms will be erected in front of the grand stand, and in the grand stand five hundred chairs to be numbered and have tickets to correspond, will be placed. This will be a well appreciated innovation.

To-day the exhibitors will be busy at the main exhibition hall at the park, getting their articles in position where they can be best seen, and all will be in readiness for the opening day. The exhibitors in the hall will be very large in number, as all of those who have usually made displays will do so again this year, while some new ones will be seen. Some of the Bangor dealers have taken additional space, and will make more extensive displays than ever. There will be more room below this year, as the vegetables will be shown in the second story.

The firemen's tournament will be event which will cause much excitement, as many companies have entered for the contests and will work hard for the prizes. Several places in Maine will be represented and companies from other States also intend to be present and strive for the trophies. A large tank has been erected on the base ball field and from it the water for playing will be obtained. The parade will be an interesting feature of the tournament and it is expected to be a big one. The tournament has attracted much attention in all quarters, and as it is a new thing for the fair will be sure to serve its purpose.

The Coburn Cadets, of the Maine State College, will go into camp at Maplewood during the week, and will be on regular duty. Tents will be pitched at the upper end of the park and their camp will be an object of much interest.

Norombega Hall has been a scene of activity for several days, as the large rooms have been in process of preparation for receiving the innumerable choice articles which will be exhibited there. To-day the displays will be put in order and they will comprise many things which will be well worth seeing. Concert Hall will also be thrown open to the public and will contain much of interest to the sight seers. The exhibits at City Hall will be placed in position to-day and will not be neglected by those who are going the rounds. It is quite an education to take in all of the sights of the fair.

Everything points to the biggest exhibition ever given by the Eastern Maine State Fair Association and thousands of people from all over the State and other states will be in attendance. The reduced rates on the railroads will enable all to come to the city who wish to do so, and the train arrangements make it convenient for everybody to take the trip. The fair comes but once a year and all should pay a visit to the Queen City.

OBITUARY

Deacon J. B. Hodsdon.

Deacon J. B. Hodsdon, one of the oldest inhabitants and residents of Kenduskeag, passed away Thursday, writes our Kenduskeag correspondent. He had been an active man all through life and had carried on for years the manufacture of all kinds of cooperage and gave employment to several men during most of the year. His little industry will be missed by us. There was a large gathering to pay the last respects at the funeral, at which Rev. John H. Higgins, of Charleston, officiated. The singing was by a male quartette consisting of four of his grandsons. He leaves a widow, one son and three daughters to mourn his loss. Not a link has ever been taken from the family chain until last spring when his youngest son was taken away. He has always been an active and interested member and worker of the Baptist Society and his counsel and advice will be missed by the society. He was a strong temperance advocate, a staunch Republican in politics and always interested in the advancement of the business interests of the town.

BASE BALL.

Bangors Beat a Game at St. John.

The Bangors played the second game with the St. Johns in St. John, on Saturday, and after the fourth inning, when the score was 2 to 2 in their favor, did not give as good an exhibition of their ability as usual and were not in the game, the score reaching 14 to 3 in favor of the St. Johns. The exciting game of the day before brought out a big crowd and there was much excitement all through it. The first kick was on the umpire, the home team refusing to allow Guthrie, who had umpired satisfactorily the day before, to officiate. The Bangors put on their coats and had almost left the grounds, when the St. John's manager, appalled at the idea of paying back the admission fee to 1,500 people, called them back and gave in. They wouldn't allow him behind the bat, however, confining him to base decisions. Wilkins, the St. John umpire, was very rough on Ruby on balls and strikes, his intentions being too evident. In the first two innings Ruby struck out five men.

In the next inning Wilkins gave the batter his base on the first ball pitched, saying Ruby's delivery was illegal. This occasioned a long kick and the Bangors justly left the field. The game, however, was played out. The team went to pieces after the fourth inning and the St. John's won easily. Ruby and Sullivan and Flavin were the Bangors battery and Small and Pushor for the St. Johns. Kirmes made a pretty play and Small was batted freely. In the first game, Howe, St. John's star twirler, was completely rattled by Ruby's coaching and got so nervous he was obliged to retire and Priest pitched the rest of the game. Ruby rattled him badly, too. The St. Johns tried to make Ruby step in the second game, but he kept it up. The St. Johns worked a very mean trick on the visitors, refusing to pay the guarantee if they played the Shamrocks and refused to pay manager pro tem. Sweeney the money until just as the train left, then keeping back $50 for fear they would stay and play the Shamrocks. This was not a creditable action by any means and reflects badly upon the St. Johns.

G. A. R. REUNION.

A Most Successful Event at Patten.

There was a large attendance last week at the G. A. R. reunion at Patten, although the weather was very unfavorable. At the Congregational church, which was completely filled, Hon. Hannibal Hamlin presided, and Congressman Boutelle delivered an address. In the evening the ball was largely attended and proved a very enjoyable event. Music was furnished by Robinson's orchestra, of Houlton, with excellent effect. The campfire was everything that could be desired, and the vacant Rest over the events of the war in imagination as they listened to the speeches and stories and sang the stirring songs. A good crowd was present, and the evening passed off in a most enjoyable manner. Speeches were made by Col. Roberts, Hon., Edward Wiggin, Comrade G. W. Smith and Postmaster L. Smith, Esq., whose remarks were listened to with great interest and applauded both much applause. A poem by Comrade Tabor was very [illegible] in effect, and the contest made by Comrade Mahoney [illegible]

REPUBLICAN CAUCUS.

The Nomination of a Strong Ticket for Representatives to the Legislature.

The Republican voters of the city met in caucus Saturday evening at half past seven in City Hall for the nomination of candidates to the Legislature and much interest was taken in the event, which was of a most harmonious order.

The weather was very unfavorable, but despite this fact which it was feared would prevent the voters from coming out, there was a representative gathering of Republicans who placed a splendid ticket in the field.

The assemblage was called to order by Mr. Trask, of the City Committee, who presented Edward A. Buck, Esq. as chairman. Mr. Buck in accepting the position made a brief but very pertinent speech, in which he referred to the importance of the coming election and the necessity of selecting representatives men who would look after the interests of the city. He suggested that the coming year is the Legislature would be an important one and that the best men should be selected. Mr. Buck believes that Bangor has a bright future, possessing as it does advantages second to no other city. Our people are becoming tired of sending their money to the wild West for investment and when this capital is employed in developing our own resources the Queen City will flourish like a green bay tree. The remarks of the chairman were heartily applauded, and at the conclusion of his remarks the organization was completed by the choice of F. H. Parshurst, Esq., as secretary. The presentation of candidates then followed.

Hon. Henry Lord in presenting the name of Capt. Henry N. Fairbanks, referred to him as a gallant veteran of the war, a prosperous business man, with a reputation for stylet integrity and ability, a loyal Republican, and a man deeply interested in the welfare of the city.

The nomination of Capt. Fairbanks was seconded by J. Albert Dole, Esq., who thoroughly indorsed the sentiments of Mr. Lord and paid a high compliment to Capt. Fairbanks as a soldier and citizen.

Upon motion of Hugh R. Chaplin, Esq., the following committee was appointed by the chair to receive, sort and count the votes: Ward one, Marshall Dyer; Ward two, John C. Bowen; Ward three, A. K. Rollins; Ward four, W. H. Edmunds; Ward five, F. D. Pullen; Ward six, H. R. Chaplin; Ward seven, G. W. Fletcher.

The ballot was then taken and the report of the committee was made by Mr. Chaplin as follows:

Whole number of votes,	117
Necessary for a choice,	59
H. N. Fairbanks had	113
J. W. Porter had	3
James Adams had	1

and Capt. Fairbanks was declared to be the nominee of the caucus.

Dr. D. A. Robinson said that in making nominations representative men were wanted who would not represent any particular enterprise, but who would look out for the best interests of the city. Men of integrity who understood the needs of the city, and who had had extended experience were those who should be chosen. He took pleasure in nominating Col. Joseph W. Porter, whom he considered to be well fitted for the office.

The ballot which was then taken resulted as follows:

Whole number of votes,	93
Necessary for a choice,	50
J. W. Porter had	81
James Adams had	17

and Col. Porter was declared the nominee.

Hon. S. D. Thurston said he wished to present the name of a gentleman who needed no introduction to citizens of Bangor to whom he was well known as a clear headed successful business man, who had all the requisites for the office of representative. With these words he presented the name of James Adams, Esq.

The ballot resulted as follows:

Whole number of votes,	105
Necessary for a choice,	53
James Adams had	103
J. W. Porter had	2

and Mr. Adams was declared to be the nominee.

As there was no further business the caucus adjourned and the good work thus inaugurated will be completed at the polls a week from to-day when the gentlemen placed in nomination will be handsomely elected.

Will Lay the Corner Stone To-day.

That important event in the history of the Young Men's Christian Association work, the laying of the corner stone for the new building, will occur this afternoon at 3 o'clock. As we have previously announced, Rev. G. W. Field, D. D., will deliver the address, Mrs. N. E. Bragg, President of the Ladies' Auxiliary, will lay the corner stone, and the Apollo Quartette will sing.

President J. G. Blake will preside. The city pastors, members of the Ladies' Auxiliary and the Association are invited to take seats on the platform.

Members of the Association and all singers are requested to assist in singing the opening and closing hymns. Doubtless there will be a large attendance. A few good subscriptions from some of the benevolent ones would make the day a most happy one for those who are so unselfishly giving so much time and money to make this worthy enterprise the success it is.

Lecture on Bulgaria.

Mr. Stoyan K. Vatralsky, a native Bulgarian, gave an interesting lecture last evening at the Hammond street church vestry, and there was a good attendance. Mr. Vatralsky spoke of Bulgaria and its religion and the close attention that was paid by the hearers showed that the words of the speaker made a good impression. Mr. Vatralsky left his native country six years ago and came to this country for the purpose of educating himself. He graduated at Howard University, Washington, and since that time has passed the greater part of the time lecturing. This he does for the two fold purpose of interesting the people in Bulgaria and for obtaining funds for a personal library. He is a convert from the Greek church and will return to his native country and preach the Gospel.

Mr. Granville D. Hathorn and wife, of Wyandotte, Kansas, arrived on the Boston train last night. Mr. Hathorn is a brother of Mrs. Clarence Hale, of this city, and [illegible]

AMUSEMENTS.

Little Lord Fauntleroy.

"Little Lord Fauntleroy," in its dramatized form, will be given at the Opera House to-night, also to-morrow and Wednesday evenings. The company is the only authorized one from the Grand Opera House, New York. Who that reads does not know the story of Little Lord Fauntleroy? Who that thinks fails to appreciate its tender pathos; its exquisite humor, and its simplicity of character? Who so young that cannot understand it, and who so dead to all gentler impulses that the perky of its sentiment will not quicken? If Mrs. Burnett had never written another book her name would go down to posterity as the authoress of the most fascinating, simple and successful work that ever came from the press, or was presented on the stage.

Natural Gas.

The sale of seats to this clever comedy, which will be given at the Opera House the last three nights of the week, will open this morning. Our theatre goers should bear in mind the tremendous crowds that will be in town the middle of the week, and secure their seats for "Natural Gas" well in advance. This is what the N. Y. Graphic said of the play.

"Natural Gas" might quite as appropriately and much more significantly be called "Laughing Gas." It is a convulsion, explosion or conflagration in three acts. The piece is attractive on the stage, constantly interrupted but not stopped by laughter in the audience. If Henry V. Donnelly, who plays one of the funnier parts, did ever seem [illegible] Owen O'Connor is "Dismal," the force of example, if not his own genius for fun, would have compelled him to occasionally address the audience to the effect that in the laughter did not stop the play would.

Mr. Eddie Girard is one of the funniest comedians that has appeared on the New York stage for years. There isn't any pretence of sense in the piece. The managers openly request the auditors to regard it as nonsense. There are a number of clever people in the cast each with such distinct peculiarities that it would seem invidious to name anyone. It has apparently been the aim of the manager to get together as many musical and acrobatic performers as he could find and let them go as they please, for six nights in any town and six months in this city if he likes.

Since that time she was under the treatment for 10 months of a first-class physician, who became discouraged, and finally allowed her to use Dr. Greene's Nervura, which she has been taking ever since. She has since had a convulsion or any symptoms of one, since the regular use of the medicine, she is getting rapidly in health and strength, and is able to attend the house and yard and do most light work.
